

Replacement heat exchangers. Simplified.

With API Heat Transfer, you can get a no-hassle, drop-in replacement – no matter the manufacturer.

Needing to replace a heat exchanger or tube bundle is headache enough. But now the process doesn't have to be. Simply send us a drawing of your current TEMA type shell and tube, hairpin heat exchanger, or pressure vessel – of any brand – and we'll manufacture an identical drop-in replacement, designed to current ASME code, for quick and easy installation. Let the experts at API Heat Transfer simplify your shell and tube replacement needs.
